Support Systems for Oil & Gas Projects

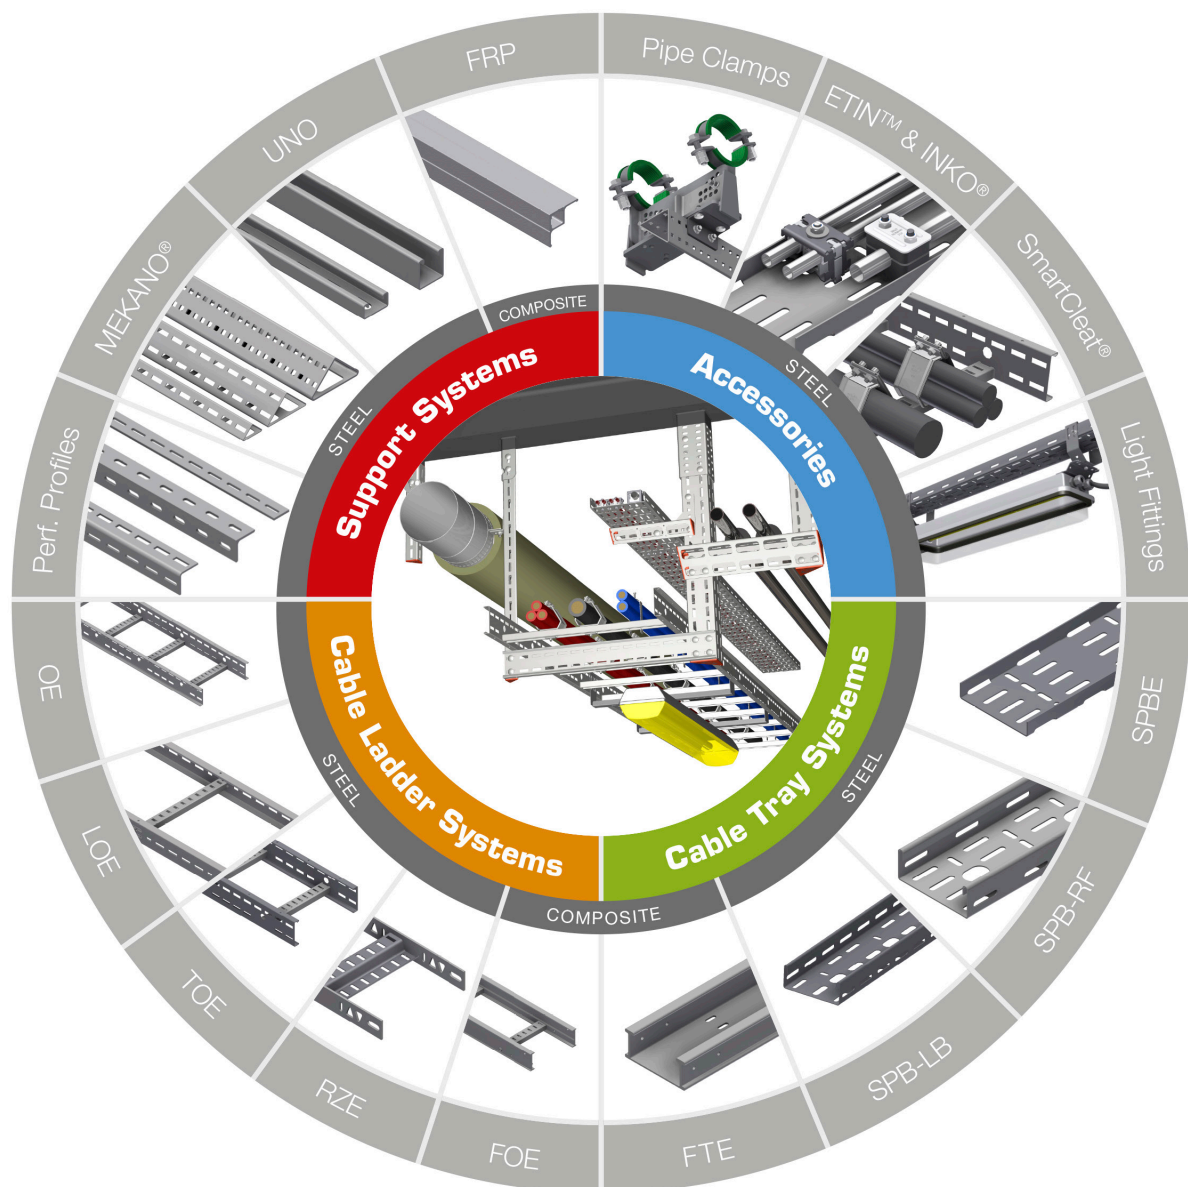

Simply the Best!

A Complete Product Range for the Oil & Gas Industry

We offer a complete containment systems for electrical, instrument, telecom and piping including starter brackets for both hot and cold work.

In addition we can provide custom made items that may be required to complete an installation. Our Product Selector allows you to digitally browse and search through a huge range of our standard products. The Product Selector is equipped with a set of powerful filtering tools to quickly and efficiently find the desired product. Furthermore, it promotes not only individual products but interactively displays and guides towards related products.

We make you more competitive

One of our strongest arguments is that we make our customers more competitive. Our multidiscipline support systems can reduce the total system cost of an EPC project by up to 30 percent. This is achieved by reducing weight, cutting engineering and installation time, optimizing coordination between disciplines and simplifying future modification work. And last but not least it improves your safety performance.

SAVE UP TO 30 %
TOTAL SYSTEM COST

Engineering Support:
Oglaend System R&D provides engineering support, from conceptual design to final installation. Our recommendations for design, choice of solutions and best practice for installation and maintenance eases the feasibility of your oil & gas project – and of course helps you reduce your total system cost.

We engineer and supply support systems for:

DRILLING RIGS

- ✓ Hull
- ✓ Derrick
- ✓ LQ

▲ Statoil's Category J, jack-up rigs for operations in harsh environment.

FPSOS

- ✓ Derrick
- ✓ Process facility
- ✓ Utility
- ✓ LQ

▲ BP's Skarv, the world's largest floating platform.

SEMI SUBS

- ✓ Derrick
- ✓ Process facility
- ✓ Utility
- ✓ LQ

▲ Ichthy's CPF, a floating giant.

3D Modelling

Our Support System, Cable Rack, Ladder and Equipment catalogues are created and maintained by Aveva PDMS/E3D and Intergraph SP3D. This is to ensure that our products are produced in a compatible system with our customers.

At Ogleand System our engineering support team connects directly with our customer to assist in the modelling of our system and we continue to update our catalogues with new products. Our support systems are available both in MDS format and as structural files.

For further details on gaining access to our Aveva PDMS and Intergraph SP3D catalogues please contact your local representative.

Bentley catalogue now available

We are also able to offer our customers a comprehensive catalogue of Ogleand System products containing our support system, cable trays and cable ladders in Bentley Raceway and Cable Management (BRCM).

Please contact your local sales organization for a copy of this catalogue.

FIXED INSTALLATIONS

- ✓ Derrick
- ✓ Process facility
- ✓ Utility
- ✓ LQ

▲ *Valemon is the first complete platform deck Statoil has built in South Korea.*

LNG PLANTS

- ✓ Process facility
- ✓ Tank farm
- ✓ Civil structure
- ✓ Jetty

▲ *Statoil's Snøhvit LNG Export Terminal, Norway.*

ACCOMODATION MODULES

- ✓ LQ
- ✓ Civil structure

▲ *ConocoPhillips' Ekofisk 2/4 L, the North Sea's largest hotel platform.*

Global Customer Satisfaction

with Superb Supply Chain Performance

Oglænd Industries AS, Norway

The parent company with headquarters and factory (Øglænd System AS) located close to Stavanger, Norway. The parent company has global distribution responsibility and houses the R&D Centre for metallic and GRP products.

Oglænd Industries SDN BHD, Malaysia

Established in 2008 in Kuala Lumpur, and has two fabrication units. This site has global distribution responsibility and is our Knowledge Center for GRP products and production of our mainly metallic portfolio.

Oglænd Industries Suzhou, China

This is our third and newest factory that started production in 2013. Our Chinese facility is located in Suzhou, near Shanghai. This factory mainly produces our metallic range.
